Printers

Every department manages its own printers (black and white and color printers) and supplies. To facilitate the printing from a Windows environment, all the printers are shared via a central server.

Installation

UNIL computer	CHUV computer
Windows You can install a printer with on click by using FBM Utility. Installing printers (Windows only) Mac The development of a solution to easily install UNIL printers on Mac workstations is in progress. In the meantime, please contact FBM IT support to install a printer on your computer.	Centre hospitalier universitaire vaudois Windows Some UNIL printers in different departments may also be installed on CHUV computers. To do this, please refer to the Management of applicative printers documentation of the CHUV Service Desk.
PrintUNIL Regarding PrintUNIL printers, please refer to the following documentation: PrintUNIL How to register on PrintUNIL with a CHUV card (fr)	

Poster

Posters are printed by the UNIL's reprography. For more information, please refer to the documentation of UNIL's IT Center (Ci).
