

SWITCH services

SWITCH

SWITCH provides different services to Swiss universities. The applications below are available for every member of the UNIL community with a UNIL account.

SWITCHfilesender

SWITCHfilesender allows you to **send large files up to 50 GB by e-mail**. Files sent through SWITCHfilesender are available to the e-mail recipient for a maximum of 20 days. This service can be used to send (or receive by sending a voucher) files up to 100 e-mail recipients, UNIL or not or to a [FBM Mailing list](#) (please log in).

Documentation

SWITCHdrive

The UNIL's IT Center recommends using OneDrive.
At the end of June 2024, the SWITCHdrive service will no longer be accessible via UNIL.

CHUV employees: The SWITCHdrive service is not available to CHUV users. If you need cloud storage service, please first contact service.desk@chuv.ch.

SWITCHinteract

SWITCHinteract is based on Adobe Connect web conference tool and allows you to **create a "virtual" working room to work as a team on a project or on documents**. This service includes screen sharing, files sharing, chat and interactive whiteboard functions. You can use SWITCHinteract from a web browser and the meeting is managed by discussion's moderator who gives the floor to participants and managed the discussion.
