

Wireless network (Wifi)

Several wireless network are available for FBM users:

For UNIL users EDUROAM

When you are at UNIL or on a trip to an SWITCH partner institution in Switzerland or abroad, you can access the internet and all UNIL services with **Eduroam** by using your UNIL-Eduroam credentials (username = username@unil.ch and password = UNIL password). This network offers an encrypted connection and can be automatically configured on any kind of device with the configuration assistant tool EduroamCAT below:

- [Eduroam configuration](#) (Windows, OSX, Linux, iOS, Android)

For more information, please refer to the [documentation of IT Center of UNIL \(Ci\)](#).

Eduroam participants:

- [Hotspot finder](#)
- [Where can I eduroam?](#)

[eduroam_mac.webm](#)

For external users

PUBLIC-UNIL - For the UNIL visitors

Individual visitors at UNIL who cannot connect to Eduroam can request an access code by SMS (free of charge) to use the **public-unil** network. For more information, please refer to the [documentation of IT Center of UNIL \(Ci\)](#).
