

Infrastructures

Using the resources of the IT Center of UNIL (Ci), the FBM IT Service provides various servers.

Internet services / Intranet (wwwfbm.unil.ch)

Thanks to our web services, we can offer the community many tools to facilitate daily work:

- administrative intranet of the FBM ([IAFBM](#));
- online survey tool ([LimeSurvey](#));
- reservation system of rooms and scientific setups ([FBM Calendar](#));
- loan system of IT resources available in the departments ([FBM loan system](#));
- inventory of scientific instruments in the departments ([FBM setups](#));
- institutionalized and personalized web space.

Sharing of printing services (fbmprint.unil.ch)

To facilitate the printing from a Windows environment, all the printers are shared via a central server.

Document management system (fbmgd.unil.ch)

To simplify the administrative work, an Document Management System (DMS) server is used.

Sharing of applications (fbmapp.unil.ch)

An applications server hosts many applications and allows the users to work on the same program at the same time, without having to install them on their computers.

- Kaleidagraph;
- Clonemanager;

Contact

For the sharing of other applications, please contact the [IT Support of the FBM](#).
