

PyRAT

PyRAT is the management software of the animal facilities used by the CHUV, EPFL and UNIL ([RESAL - réseau des animaleries lémaniques](#)).

Infrastructure and IT equipment

Since 2012, the [FBM IT Service](#) manages the infrastructure and the computers of the PyRAT project. If there is a problem with the IT equipment of the 'animaleries' situated in the Bugnon-Epalinges area, please contact the [IT Support of the FBM](#).

PyRAT accounts

If you have any question about PyRAT accounts (opening, loss of password, etc.), please contact [info.animals\[at\]unil.ch](mailto:info.animals[at]unil.ch).

Access to the application

You can access PyRAT only if you are connected on the UNIL network. If you are working from outside the University, please use a [VPN connection](#).
