# External users: How to request a UNIL account (neither student nor employee)

#### **Product**

	Name
System	Windows/Mac

#### **Description**

The opening of IT access (IT account with or without a personal @unil.ch mailbox) is not automatic for people who are external to UNIL (neither student registered on a study plan, nor employee with a contract at UNIL). This article explains how to request a UNIL computer account with or without a personal mailbox for external users.

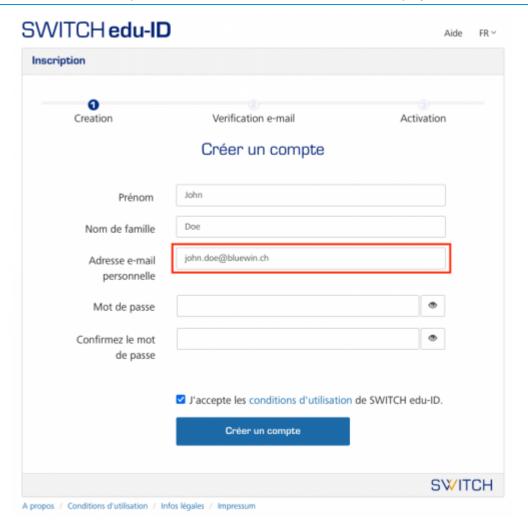

#### **Solution**

#### Step 1 - Creation of the Edu-ID account

1. Go to https://eduid.ch/, click on **Create account**.

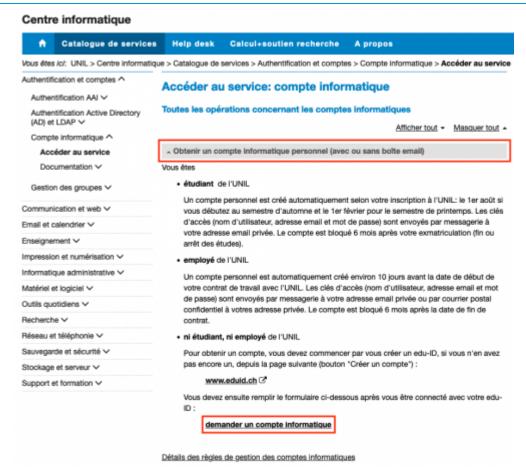

2. Create an account based on your personal email address (e.g. @gmail.com; @bluewin.ch, etc.) and follow the SWITCH instructions to verify it.

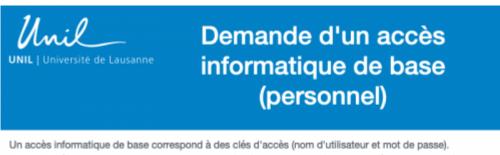

#### Step 2 - Creation of the UNIL account

1. Go to the UNIL account request form and authenticate yoursefl with the edu-ID account you\_created beforehand (if you don't have an edu-ID account, please follow the procedure described in the previous chapter).

2. The form opens with your edu-ID information (last name, first name, private email address - instructions for activating your UNIL account will be sent by email to this address) and by attaching you to the "Externes de la Faculté de biologie et médecine (FBM) ou CHUV" user group (see point 3.b below).

Avec ces clés, il est possible ensuite de s'authentifier (ou se connecter) sur les systèmes de l'UNIL (WiFi, MyUnil, ...etc).

Si souhaité, une boîte email est créée, avec une adresse email de type prenom.nom@unil.ch.

- Les employé-e-s de l'UNIL reçoivent automatiquement un compte informatique quelques jours avant le début de leur contrat de travail. Ils ne doivent pas utiliser ce formulaire.
- Les étudiant-e-s de l'UNIL reçoivent automatiquement un compte informatique dès que leur inscription à l'UNIL est validée pour le semestre en cours. Ils ne doivent pas utiliser ce formulaire.

Ce formulaire est destiné uniquement à une demande de création d'un accès personnel.
