

Saving the printing settings (Mac)

Product concerned

	Name	Version
System	OS X	>=10.6

Description

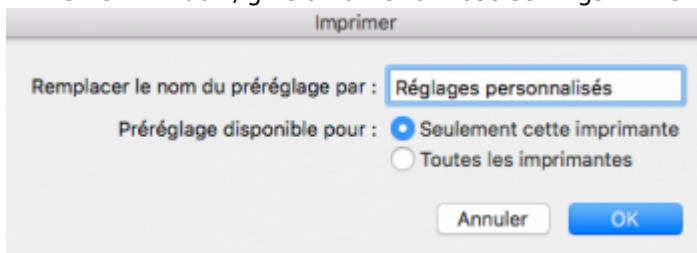

How to save the custom printing setting using a Mac.

Solution

- Go to **File → Print** or click on **cmd+P**.
- Choose the settings (black and white/color, duplex printing, etc.).
- Choose **Enregistrer les réglages actuels comme préréglage...** in **Préréglages**.

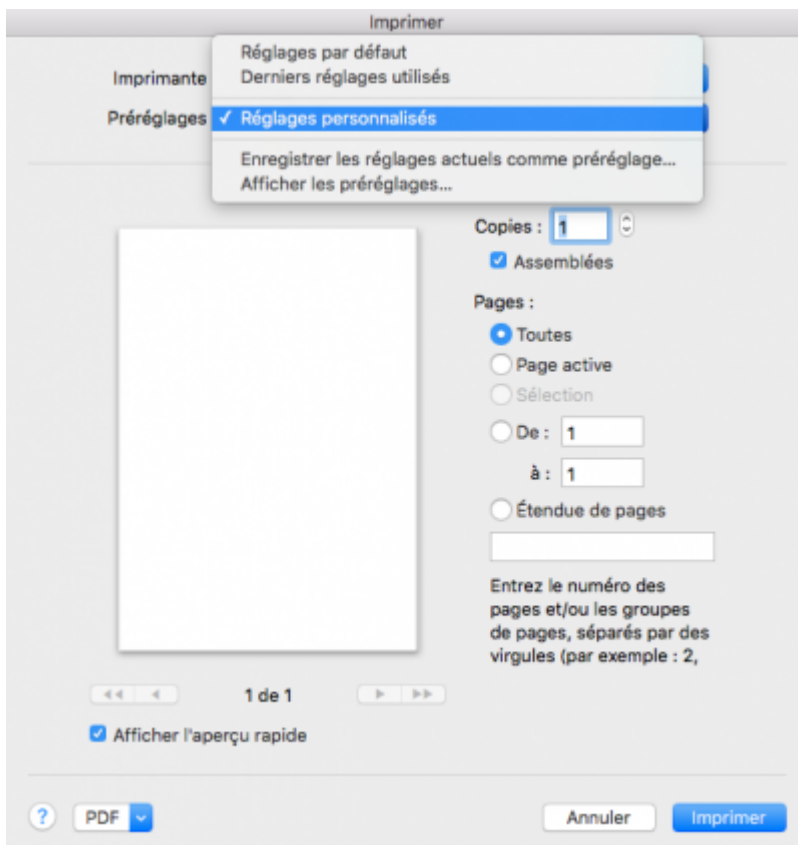

- In the new window, give a name to those settings in the field **Remplacer le nom du préréglage par:**

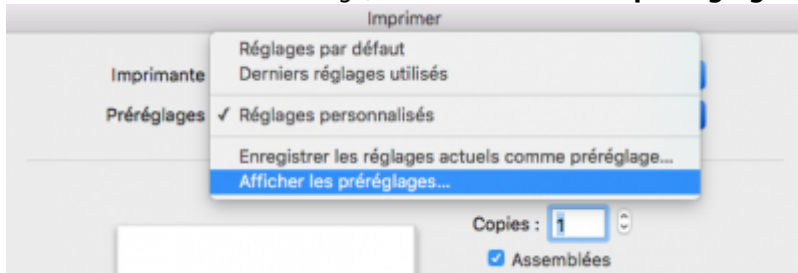

- The custom settings are now available in the list.

Programme informatique de la FBM

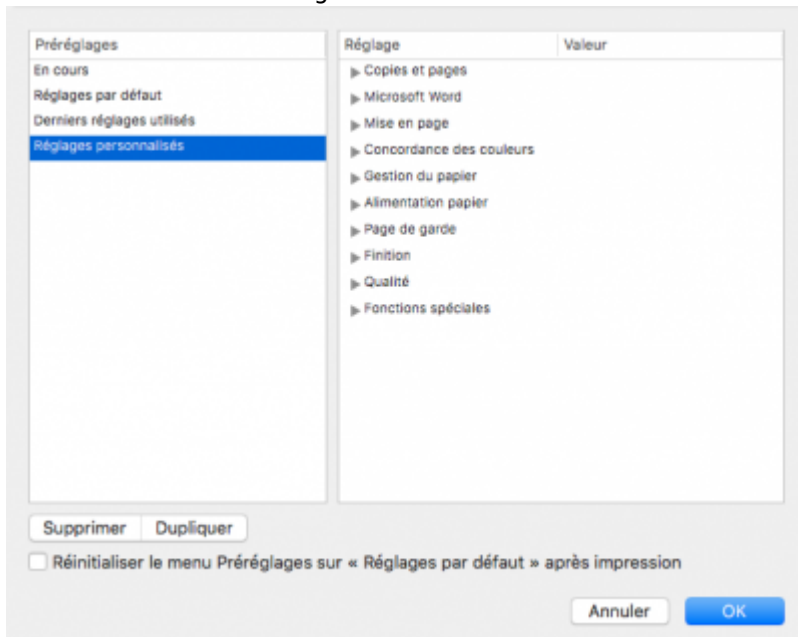

Saving the printing settings (Mac)

- To delete the custom settings, choose **Afficher les préréglages...** in **Préréglages**.

- Choose the custom settings in the left list and click on **Delete** than on **OK**.
